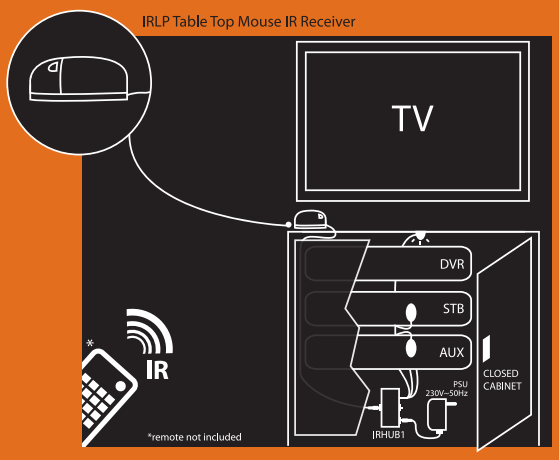
IR Link P

Mains Powered InfraRed Remote Control Extender

for your electronic home



Our ebode proprietary eIR²x™ (pronounce Irex) Technology guarantees a high level of immunity for InfraRed noise from direct sunlight, CFL lighting and Flat Panel TV's (including Plasma, LCD and LED). Provides accurate reproduction of the latest generation InfraRed codes that are used in remote controls of, for instance, Set-Top Boxes and Media Players (incl. RC5/6, RCMM, XMP). The IR Link P runs on a 12VDC mains adapter (included). No battery required!

The ebode IR Link P is a mains powered InfraRed Extender System that allows full remote control operation of audio/video components (such as your Blu-ray Player, A/V Receiver, DVR, Satellite Box, Cable Tuner, etc.) which are located behind closed cabinet doors or other concealed and/or out-of-sight locations.

Signale von Ihrer eigenen Fernbedienung verlängern. Der IR Link P macht es möglich, Ihre Audio/Video Geräte zu bedienen, auch wenn diese in einem abgeschlossenen Schrank untergebracht sind oder außer Reichweite stehen.

Met de IR Link P kunt u de InfraRood signalen van uw eigen afstandsbediening verlengen. IR Link P maakt het mogelijk om uw A/V apparatuur te bedienen terwijl deze in een gesloten kast staat of verdekt is opgesteld.

IR Link P är ett InfraRött förlängningssystem som tillåter fjärrstyrning av AV-utrustning, och som är t ex lokaliserade bakom stängda dörrar eller andra områden som är utom synhåll.

Le IR Link P est un système d'extension InfraRouge qui permet de contrôler à distance des équipements A/V situés derrière un placard fermé, cachés ou tout simplement hors de portée.

El IR Link P es un Sistema extensor de InfrarRojos, que permite pleno control remoto por infrarrojos sobre diferentes equipos de A / V, situados éstos en lugares ocultos a la vista como por ejemplo en muebles cerrados.

O IR Link P é um sistema extensor de InfraVermelhos que permite o controlo remoto de equipamentos A/V em locais escondidos ou fora de vista, como dentro de armários.

IR Link P è un Sistema di Estensione InfraRossi che consente di utilizzare il Telecomando a InfraRossi per comandare apparecchiature multimediali Audio/Video poste all'interno di cabinet chiusi e/o in altre postazioni non in vista.

Available Plug Types: Australian, European (Schuko) and UK plug types
